Lottery Advertisements Must be Excluded.

Two Coming Suits to Test the Gov ernment's Power.

Atty.-Gen. Miller Prepares a Brief on the Subject.

He Shows That Congress Has an doubted Right to Legislate for the Common Good -Sound Arguments.

Washington, Sept. 17.—By the Associated Press.] The case of the United States against John L. Rapier and two cases of the United States vs. George W. Dupre will come up for argument at the October term of the United States Supreme Court. Each of these cases is an application for the discharge by writ of habeas corpus from arrest for alleged violation of the anti-lottery legislation of the United States in mailing lottery advertisements. Judgment was against the defendants and the cases were ap pealed to the Supreme Court. Attor ney-General Miller prepared a brief which he submits in behalf of the Government. "If it can be demonstrated." says the brief, "that to pre-upon one's fellow-men by means of lottery is a fundamental human right, the decalogue and the sermon on the mount, not to mention the declaration of independence ought be rewritten at once. I maintain," continues the Attorney-General, "without fear of successful contradiction, that whatever acts or enterprises Congress has the power to make criminal in the District of Columbia or Territories, it may refuse, directly or indirectly, to aid, encourage or abet in any State, without violating any obligation, either to the citizen or ottery is a fundamental human right any obligation, either to the citizen of State. Any State may make the prac-tices of this lottery company or even the possession of its tickets within its borders with intent to sell them a crime and "exercise this power of legislation in regard to the mails as in the exercise of many of its other legislative powers." The Attorney-General holds that Congress has very broad discretion as to whether it shall at all and if so when and to what extent and for what

when and to what extent and for what when and to what extent and for what purpose it shall act.

The Attorney-General then argues to show that Congress has undoubtedly a right to legislate for the common good and says. "Suppose, as is now an early probability, a postal telegraph should be established; is it true that the United States Government would be under ob-States Government would be under ob states Government would be under colligation to transmit over its telegraph lines messages in reference to all business or practices not indictable at common law or not known to the law books as mala in se? Could t not refuse to transmit telegrams bloddy relating to gambling transactions, trading upon margins in wheat or stocks or negotiating purchases and the sale of lottery tickets, or in regard to any other business which in exercise of its sound odiscretion Congress might declare to be contra bona mores?" Upon the theory of the argument of petitioners that publishers of newspapers had an absolute right to carriage in the mails, and that any discrimination against them is abridging the freedom of the press, then all postal regulations by which letters are given precedence over newspapers in the mails, even in time of carriage and distribution are invalid. This is certainly a discrimination against the newspapers, and might be held to be abridging the and might be held to be abridging the

freedom of the press." ALLIANCE AMBITION.

They cut the telegraph wires but communication was restored today. revolutionists have had a fight with a squad of armed customs guards near San Miguel, and lost some of their horses. No one was hurt so far as known. Gen. Cortina, the erstwhile terror of his deighborhood, was arrested at Matamoras today. Cause not

stated."

San Antonio (Tex.,) Sept. 17.—Capt. Randall of Fort Ringgold wired Gen. Stanley concerning the men who invaded Mexico to foment a revolution. A scout sent yesterday has returned and reports that he went to Genella ranch, eighteen miles from Fort Ringgold, and found that a party of sixty men had crossed the Rio Grande on the night of the 15th. They came from Paleto Blanco, eighty miles north of the crossing. Many of them were Mexicans from Carmargo and were comfrom Carmargo and were commanded by C. A. Gorsea, an editor. A large body of Mexican troops from San Miguel engaged them yesterday at Mogre and are now in pursuit. There is a report of more trouble by revolutionists. The leader Gancias was formerly editor of a Mexican paper at San Antonio and lately at Carmargo. He is under indictment for crimally libeling the government of Leon.

New Onleans. Sept. 17.—The Times Democra Laredo (Texas) correspondent telegraphs last night: "While the plaza of this city and Neuva-Laredo was crowded with people from unknown parts, there was distributed a dodger printed in Spanish called "Plan of Revolution." It set forth that Mexico was into its second Sarta Ana referring the second services are paid the rest of the estate is under the believe of the setate is left in trust to John W. Mackay and R. V. MRS. FAIR'S WILL.

The Estate is Valued at Between \$4,000, 000 and \$5,000,000.

SAN FRANCISCO, Sept. 17.—[By the Associated Press.] The will of the late Theresa Fair was read yesterday to the members of the fimily. The estate is valued at between \$4,000,000 and \$6,000,000, and the bulk of it is left to the two daughters, Mrs. Herman Oel-rich and Virginia Fair. Two sons, Charles and James Fair, are left \$500,000 each.

The estate is left in trust to John W. Mackay and R. V. Dey for the benefit of Mrs. Fair's four children. After the bequests are paid the rest of the estate is to be divided equally between the two daughters; \$1.590.000 is to be paid each of the daughters when they reach the age of 25 years; meantimethey will receive \$2500 each month. The boys receive \$500 a month each until Charles is 35 and James 30 years old. Charles is 35 and James 30 years old, when the full bequest will be paid over

OKLAHOMA BOOMERS.

A Great Crowd, Mostly Negroes, Waiting to Enter Lands.
GUTHRIE (O. T.) Sept. 17.—[By the Associated Press.] Prospective settlers of the new Indian lands are awaiting with much impatience the President's proclamation permitting them to enter and claim their homesteads. Most of the boomers have already gone as far as the border and need only the word from Washington to send them over the line. On the border fully 3000 people are gathered. One notable fact concerning the people who intend to settle in the new land is that large numbers of them-nearly half of them it is estimated-are negroes. them it is estimated—are negroes. Governor Campbell Opens the Campaign in Ohio. Sherman Makes a Telling Speech to the Farmers.

ocrats Meet and Resolute at Great Length-Lieut.-Gov. Jones the Saratoga Convention.

COLUMBUS (O.,) Sept. 17 .- [By the Asso ciated Press.] Gov. Campbell opened the campaign at Sidney today. The Governor's speech was devoted chiefly to the tariff and silver questions. He said that McKinley had dodged the former question from the opening of the campaign. and had made the silver question para mount. He charged the Republican leaders of the State with having made concentrated efforts to force down the tariff issue in the campaign. He then took up the record of Mai. McKinley on the silver question and charged him with having voted for free coinage as far back as 1877. The free silver men had claimed McKinley as a champion about the time of the passage of silver certificate act.

GRAND ISLAND (Neb..) Sept. 17 .- The Democrats met in State Convention nere today. Frank P. Ireland presided and J. H. Broody was nominated for Supreme Judge and F. A. Brogan and S. F. Hencher for regents of the State University. Every mention of the name of Cleveland provoked wild applause. The platform adopted congratulates the people upon the defeat of the probibition amendment, denounces the Force Bill, rejoices that Congress will soon become a deliberative body, denounces trusts and pools and condemns as one-sided the reciprosity of the present administration which invites commercial intercourse only with nations which buy our manufactured products and prohibits freedom of exchange with those nations which purchase our surplus agricultural products as an attempt to continue to favor manufacturing industries in another form. It demands that all legislation upon this subject shall give to the farmer equal consideration with other classes of society. It favors free coinage of silver and that it shall be made full and legal tender for all debts, public or pricourse only with nations which buy our legal tender for all debts, public or pri

ard for the rich man and another for the poor man.

The platform denounces as suggestive of partisan prejudice the indecent haste shown in issuing the writ of ouster against Hon. James E. Boyd, the chosen Governor, denying to him that courtesy and fair treatment usually accorded. The election of United States Senators by direct vote of the people is approved. The platform concludes by denouncing the McKinley bill, and says it multiplies the people's burdens and increases their taxes, lessens the price of their products and decreases the purchasing power of their income. It demands a tariff for revenue only, and a return from special to constitutional taxation; and favors placing raw materials upon the free list, greatly reducing the bur-den of the necessaries of life and im-posing the heaviest duties upon lux-

uries.

"Continued subservience." says he "but makes the condition too degrading to be quietly borne by American citizens. There is but one way to dislodge these usurpers. The temporary defeat of the party will be harmless compared with the effects of their control. For the welfare of the State and the interest of the Democratic party my duty is to oppose the cratic party my duty is to oppose the election of the nominees of the Saratoga Convention to such extent as may be within my power and in such manner as may seem best to accomplish that purpose."

A Cocking Main. Washington, Sept. 17.— Arrangements have been completed for an inter-

each battle. The contracting partie are Anthony Greene of Sacramento and A. B. Suit of Sultland, Md. Both are A. B. Suit of Sultland, Md. Both are prominent breeders of the same fowl. Richard Knox is the final stake-holder. Each side is to have seventeen cocks: Light weight to be four pounds, eight onnces; heavy weight, six pounds, four ounces. The main is to be fought in New York or New Jersey on Sept. 7, 1892 and Arthur, B. Suit or stake. It Continues to Simmer in 1892, and Arthur B. Suit, or holder, is to select the battleground. Each side has deposited \$500, and the final deposit is to be posted on January 4, 1892, making the total \$6000.

By Telegraph to The Times. New York, Sept. 17.—[By the Associated Press.] A Washington special "Senor Celso Calsar Moreno, a well-known Italian-American residing here and acting as agent in this country of the National party of Hawaii, corresponding to the Chilean Congressionalists, today laid before the President a letter that he had recently received from a correspondent in Honolulu asserting that England is now planning to take possession of the kingdom. The writer said that some action on the part of the United States is necessary, that the Queen is favorable to British interests and ready to countenance the move when made. The President was interested by the letter and asked Senor

Moreno to communicate with Secretar CHINESE OUTRAGES.

The Chinese Government Makes Fair Promises to Europeans.
Shanghai, Sept. 17.—[By Cable and Associated Press.] China is preparing a protocol to the powers on the recent riots. It is believed the foreign minis-ter will not wait for this document, the preparation of which is likely to occupy

several weeks. Paris; Sept. 17.—The Chinese charge d'affaires has visited Foreign Minister Ribot, and after informing him that China recognized that measures hitherto taken to protect Eu-ropeans in China were insufficient, assured him that the negligent mandarin would be dismissed and the rioters pun-ished. He added that six of the latter had been hanged. It is feared, how-ever, that these promises will remain a dead letter.

The franchises were all obtained in

the name of the Los Angeles Cable Railway Company, but thereafter John J. Mitchell, James L. Houghteling and Charles B. Holmes undertook to incorporate the defendant corporation, the Pacific Railway Company under the laws of the State of Illinois.

The articles of incorporation filed in Illinois are also interpolated, the capital stock being the same as mentione above. The names of the subscribers of stock are John J. Mitchell, 5000 shares, \$500,000; and the same number of shares being taken by C. B. Holmes, James L. Houghteling, Alex Geddes and Morton B. Hull. The subscriptions are Morton B. Hull. The subscriptions are dated August 10, 1889, the persons above named being made the directors of the company. The parties were all residents of Chicago and the principal office of the company was mentioned asbeing at Chicago. Charles B. Holmes was elected president.

The announcement in The Times of Attorney-General Hart's action in commencing proceedings to disfranchise the Pacific Railway Company, on the ground that it is a foreign corporation, caused a sensation in local railroad circles yesterday, and formed a topic of considerable interest to the public generally.

The suit is entitled The People of the State of California, upon the information of W. H. H. Hart, Attorney-General of the State of California, plaintiff, vs. Pacific Railway Company (claiming to be a corporation,) defendant.

The complaint, which was filed at 50 clock on Wednesday afternoon, is a somewhat voluminous document. It alleges that on or about the 13th day of July, 1887, the Los Angeles Cable Railway Company became a corporation, duly organized, created and existing under the laws of the State of California for the purpose of obtaining, owning and operating a railroad under the laws of said State, in the county of Los Angeles, in the mode set forth in its articles of incorporation. Coroner Weldon was notified, and at once took charge of the body, which was removed to Orr & Sutch's, on Spring street, where an inquest will be held this morning at 10 o'clock.

An examination of the revolver, an American bulldog, showed that two of the cartridges snapped before the third one exploded, and from the appearance of the room it was evident that as soon as his wife left the room, Downs got out of bed and at once shot himself.

The deceased was about 30 years of age, and leaves a wife but no children. Although a confirmed invalid, Downs was a pleasant, companionable man,

THE YOUNG FIREBUG.

He is a Fifteen-year-old Boy Namod Lewis Case.

A Detailed History of His Operations-Fired the Methodist Church Because He was Snubbed -His Statement.

The identity of the youthful hrebug whose arrest was published in THE TIMES several days ago, together with the principal features of the case, and who has since been kept in solitary confinement at the city prison, has at last been disclosed. The boy's name is Lewis Case, aged 15 years, and he has been living with his parents on Sixteenth street, just back of the Hotel Figueroa. Yesterday afternoon a complaint was sworn out against him, charging him with incendiarism, on which he was arraigned, and his examination set for tomorrow morning at 9:30 o'clock, he being sent to the County

Jail in the meantime.

Before leaving the police station young Case made a full confession as to the firing of the Methodist Church on Fifteenth street, the Chinese laundry, Miller Bros. barn and the Main street car barn, but denied that he fired the engine-house. From the fact, however, that he had fire badge No. 20 in his possession, which was on the engineer's vest in his room at the house when the firemen went out, and was missing on their return, the officers are of the their return, the officers are of the opinion that he is guilty of this crime also. In fact, the finding of the badge was the first clew the officers got, young Case claiming that he found it on Fourteenth street.

In regard to the attempt to burn the church, young Case said that he attempt to burn the church, young Case said that he attempt to burn the church, young Case said that he attempt to burn the church, young Case said that he attempt to burn the church, young Case said that he attempt to burn the church, young Case said that he attempt to burn the church, young Case said that he attempt to burn the church, young Case said that he attempt to burn the church young Case said that he attempt the church yo

tended the Sunday-school, and deter-mined to burn the building because the teachers snubbed him. He effected an entrance through the rear, got a can of fire was extinguished.

He next fired the Chinese faundry out near Washington Garden, stealing the coal-oil from the printing office of Eddy & Soules, where he worked, and almost immediately after firing Miller Bros. barn, first, he says, untying the horses, one of which came out but the other remained and was burned to death, the boy looking on.

Young Case then slipped across to the Main-street car barn and made his way to the rear of the building, where there is a lot of hay, which he touched off with a match, again making his escape. This fire would have been a disastrous one but for the presence of mind of the night watchman, a young man named Schultz, who, when he saw the blaze, gashered up an armful of loose hay and gashered up an armful of loose hay and fell on the fire, smothering it before it got gool headway. Had it burned two minutes it would have been beyond con-trol, and a number of horses would have been destroyed.

been destroyed.

Although questioned closely, young Case stuck to his assertion that he did not set fire to the engine house, although the officers think that they will be able to fasten this crime upon him also.

Young Case insists that he was alone in the work of starting the fires, and while it is probable that this is true so far as the actual firing is concerned, the officers believe that there is at least one other person implicated, but he has not yet been captured, and it is thought that he has made good his escape, although all hope of catching him has not been abandoned.

Young Case offers ne explanation for his contractions for the starting for the s

abandoned.
Young Case offers no explanation for his curious freaks. He denied everything until such evidence was produced that he could not get out of it, and then he owned up.
His parents, who are hard-working, respectable people, are completely crushed by the disclosures. The boy has heretofore given no indications of viciousness, but for the past year has been reading up on the "penny dreadful" literature, and it is to this pernicious influence that his unaccountable actions are attributed.

In the case of the people of the State of California, by George A. Johnson, Attorney-General, on the relation of John erts (respondent) vs. Prudent Beaudry et al. (appellants,) the judgment and order of the trial court are reversed, and the cause remanded for a new trial. This is an action to declare a certain strip of land to be a part and portion of Buena Vista street in this city, and to compel defendants to remove therefrom the buildings, houses and fences, and all obstructions whatsoever, and to enjoin them from again erecting the same or any other obstruction thereon. Judgment was ordered for plaintiff as prayed for; but defendants appealed, and the Supreme Court upholds their contention that the trial court erred in

and the Supreme Court upholds theircontention that the trial court erred in
refusing to admit in evidence the judgment-roll offered by appellants, showing
conclusively that the land in question
was conveyed by the city to one McLaughlin in 1856 and 1857.

A similar order was made in the case
of Sarah E. McDaniel et al. (respondents) vs. J. H. W. Patterson et al., (appellants,) an action to cancel and annul three deeds, in which judgment was
rendered for plaintiffs as prayed for,
and defendants appealed therefrom.

Judgment is affirmed in the case of
Kiessig (respondent) vs. Allspaugh et
al., (appellants,) an action on a bond
indemnifying plaintiff from all claims
or liens for material or labor used in
the construction of a house by defendants, in accordance with a contract
entered into by the parties. Judgment
was ordered in favor of plaintiff;
whereupon one or the defendants appealed, his contention being that the
bond was void because neither it nor the
contract referred to had been recorded,
but the Supreme Court holds that the bond was void because neither it nor the contract referred to had been recorded, but the Supreme Court holds that the appellant is not in a position to deny his liability upon it. Judgment is ordered reversed, however, as to the defendant Lundeen, one of the sureties on the bond in question.

This is a proceeding under sec. 1287 et seq. of Code of Civil Procedure, to condemn a right-of-way for an outfall sewer from the city of Pasadena to a tract of land outside of the city limits known as the sewer the city limits, known as the sewer farm. The defendants appealed from a decree of condemnation.

THE QUICKEST ON RECORD.

In Department Six yesterday the case against Ah Fat, a Chinaman charged with having attempted to commit the crime of grand larceny, came up for trial before Judge McKinley and a jury and was disposed of with such expedition and dispatch as to place it upon the list of record-beaters.

The case was called at 10:45 o'clock, and after three records become the control of the case was called at 10:45 o'clock, and after three records are records.

and after three more jurors had been added to the nine selected on Wednesday evening, Officer Fay, the complainant, was examined. His testimony was to the effect that on the night of June 10 he was hiding behind some bales of hay at the Plaza hay market, when the defendant came along. In order to avoid being seen the policeman lay down and feigned sleep; but the wily heathen was evidently looking for just neathen was evidently looking for just such a chance, as he stooped over the prostrate form of the policeman and, after smelling his breath, proceeded to cut his watch chain in two with a pocket knife and abstract the timepiece from his victim's pocket. While he was "rolling" the officer Fay jumped up and yrabbed him.

This closed the case for the prosecution, and the defendant then took the stand and denied the whole story. The matter was submitted to the jury, which body returned six minutes later, with a rerdict of guilty as charged, and at 11:15 o'clock the jurors were discharged and the defendant remanded to appear for sentence on Monday next. TAKEN UNDER ADVISEMENT.

The case against Foreman Thomas Kelly and the ten laborers arrested on Tuesday last at the instigation of the cable company for interfering with its tracks at the proposed crossing of the Los Angeles Consolidated Electric road at Flower and Twelfth streets, came ap for hearing before Township Justice Stanton yesterday afternoon, by whom, after argument, it was taken under advisement.

GUILTY OF SIMPLE ASSAULT. The case against Christoba Pina, a young Mexican, charged with having assaulted Dolores Lobo of Spadra with assaulted Dolores Lobo of Spadra with a deadly weapon, to-wit: a glass bottle and a knife, during an altercation at El Monte on June 14 last, came up for trial before Judge Smith and a) jury in Department One yesterday, and resulted in a verdict of gnilty of simple assault. The defendant was ordered to appear for sentence on Saturday.

AGAIN POSTPONED.

In Department Six yesterday morning Wong Ark, the Chinaman recently convicted of murder in the first degree, appeared before Judge McKinley to recive sentence, but upon motion of his attorney. Jesse Hardesty, Esq., and the Court being occupied with another case, the matter was again postponed until this morning. AGAIN POSTPONED.

Judge Van Dyke disposed of three der. In the case of G. Peters vs. J. W. Taylor, judgment was ordered for plaintiff in accordance with a stipulation to that effect; in that of J. W. Call vs. J. T. Henry and company was conserved. T. Houx, judgment was ordered for plaintiff, the defendant, however, being allowed sixty days time in which to pay up; and in that of Mary R. Sinsabaugh vs. Amos A. Durrell, a decree was ordered for plaintiff for \$727.28.

NON-SUITED.

Judge Shaw yesterday granted the defendant motion for a non-suit in the case of Theresa Luhring vs. W. H. Burkhart, which had been carried up from the Township Court on an appeal. The plaintiff was arrested at the instance of Burkhart on April 15, last, upon the charge of having threatened to kill him. Being unable to furnish bail, she was committed to jail and remained there for three days; and upon her discharge she brought suit for damages in the sum of \$299.99 for defendant motion for a non-suit in the

false imprisonment and gained judg ment, whereupon defendant appealed

GIVEN JUDGMENT.

In Department Five yesterday the case of Madalena Paix vs. Auguste Nil came up for hearing before Judge Shaw; and resulted in judgment for plaintiff in the sum of \$480. On March 11, 1889, plaintiff entrusted defendant with a check drawn upon K. Cohn & Co. in her favor for \$480, and indorsed by F. Granide, which she asked him to collect for her. He did so, but did not show up again until June, when he only accounted for \$50 of the money he had collected.

Court Notes.

In Department One, yesterday mornng, Walter H. Rees, a seventeen-year old incorrigible, was committed to the State reform school at Whittier by Judge Smith for the period of one year.

Judge Smith for the period of one year.
Judge Smith yesterday granted a decree of divorce to Mrs. H. S. Brower separating her from her husband, J. D.
Brower, on the ground of desertion.
The case of A. L. Burbank vs. L. W.
Dennis et al., occupied Judge Clark's attention yesterday, and will be taken up again today; while Judge Wade and a jury again listened to expert testimony in the case of Clemente Cruz de Coronel vs. J. W. Wolfskill et al.
Edward Demmler, a native of Germany was duly admitted to citizenship of the United States by Judge Clark yesterday, upon producing the necessary proofs of residence here, and taking the requisite oaths of renunciation and allegiance.
In Department Four yesterday the case of Henry L. Cobb against Joseph Hannon et al., came up for hearing before Judge Van Dyke, who rendered judgment for plaintiff in the sum of \$2500, his being a prior lien, and for the defendant, J. J. Warner, on the second mortgage, set forth in his cross complaint, in the sum of \$7500.

Burying in Mud Cures a Negro of a Sup-posed Fatal Rattlesnake Bite.

posed Fatal Rattlesnake Bite.
Et Dorado Springs, (Mo.,) Sept. 13.—
[Correspondence.] Just south of this place is a large colony of negroes and a strange cure is reported from their vil-lage. A stream, into which empties the waters of the springs which make this town famous, runs through their settlement. They claim that the stream and the mud which is made from its waters possess remarkable cur-ative powers. Their claims are now borne out by a fact which is worthy of investigation by the medical fraternity. Some days ago a negro boy was playing in the bushes and was bitten by a large rattlesnake. The wound swelled and the arm became so large that it looked as if it would burst. The boy went home as rapidly as possible, and when he got there he was almost dead with poison.

he got there he was almost dead with poison.

Instead of sending for a doctor or dosing him with whisky, according to the regulation treatment, the boy was taken to the bank of the stream and literally buried in the mud. He was so covered that only his face appeared. He was kept in this position for two hours, when another hole was dug and the boy again buried. When the transfer was made it was seen that the swelling had almost entirely disappeared from the arm, and the boy said he felt much better. He was kept in the second hole for two hours and then taken out and placed in bed and fed on strong chicken broth. His recovery was very rapid, and on the second day there was no sign of a snake bite except the marks of the teeth, which looked like pin-pricks. The negroes say that this method is used by them because their oldest men and women say that it is right, and that they had been taught it when they were children, and they suppose that it came down from the African forests, where their race was so apt to be bitten by snakes of a poisonous nature.

That tired feeling is entirely overcome by Hood's Sarsaparilla, which creates an appetite, rouses the liver, cures headache, and gives renewed strength and vigor to the whole body. Be sure to get Hood's sarsaparilla, which is peculiar to itself. Sold by all druggists.

Every day brings early returning tourists from the clime beyond the Rockies, where Jack Frost's nimble fingers have already touched to a glow-ing crimson the leaves on trees and shrubs. The streets begin to assume the appearance of fall. The shops are resplondent in autumn fabrics, the windows gorgeous in their new dress. Faces browned by a kindly summer sun testify to the outdoor life of their own ers, while here and there, in the hotels and clubs, are encountered loiterers who are getting back to the cares of business after a season spent along the beach or in the mountains. Some will linger yet a few days or weeks, but the great majority of the fashionable world are on their way home and shortly society will resume its round of pleas

Hundreds of People Attracted by the Lily Exhibit.

Fully 500 women and nearly as many men were attracted to the Chamber of Commerce yesterday to see the display of water lilies, a notice of which was published in yesterday's Times. J.,) lotus pond, which is one of the greatest botanical wonders in the United States, and also proprietor of the Edgemont water garden near Cahuenga Pass, was present den near Cahuenga Pass, was present in person. He says he will keep the exhibit open until next Tuesday. This is a rare opportunity of seeing some of the choicest specimens of aquatic plants. There are 100 buds and blossoms exhibited in the new tank, and some of the leaves are fully fifteen inches in diameter. Mr. Sturtevant has been engaged in the culture of aquatic plants for fifteen years, and divides his time between his Bordentown gardens and his California illy pond.

The model of the Courthouse also attracted much attention from the visitors. The ladies who decorated this deserve a diploma and a gold medal. The amount of time consumed in decorating it represents thirty-six days labor, and hard labor at that. One cannot examine it closely without marveling at the infinite amount of patience requisite for such an undertaking. The colors of the grains, nuts and dried fruits used are so well blended that the colors of the grains, nuts and dried fruits used are so well blended that the general effect is very handsome. The roof is covered with walnuts and on the sides and tower are raisins, prunes, dried apricots, peaches, plums, apples, pears, red peppers, pecans, peanuts, almonds, dent corn and popcorn, wheat, oats, barley, lintel seeds, timothy seed, alfalfa seed; navy, lima and frijole beans, sunflower seed and castor beans. The ladies who labored so faithfully during the hot summer days in completing this work of art are: Mrs. Rickey, chairman of the committee, Mmes. Kifkbride, Gingery, Biles, McCreery, Woods, McComas, Wells, Hutchinson and Lansing. It is a standing monument of the ladies' contribution to the great Chicago carnival of 1891.

NOW READY! MIDSUMMER HARVEST NUMBER

The Tos Augeles Times

This issue, consisting of 20 large pages, contains a full and accurate description of the progress made during the past few years in the development of Southern California's agricultural resources, the present condition of the country, the crops, prices and markets, water and irrigation, cost of land, cultivated and uncultivated, and openings for more growers, together with accurate accounts of the fruit and other crops gathered or to be gathered during the season, and graphic descriptions of the orchards and fields as they have been actually found by our reporters and special correspondents.

This is, without exception, the most complete description of the agricultural resources of Southern California; of

The Land and Its Fruits,

ever issued. Seven counties are described in detail-Los Angeles, Orange, San Berever issued. Seven counties are described in detail—Los Angeles, Urange, San Bernardino, San Diego, Ventura and Fresno, the representative county of the great San Joaquin Valley. The matter is thoroughly practical in character, dealing with just thos features that a person who is thinking of coming to settle in Southern California would wish to know. Here will be found the actual prices at which land may be purchased in the various localities; what may be raised; the prices per acre realized from year to year for products: numerous examples of returns from fruit and other crops; interviews with successful horticulturists who started on a small scale, showing how tirey managed, and directions where to obtain cheap land, which, it is shown, may still be had in this section. The issue forms a comprehensive bird's-eye picture of

Southern California as it is.

Incidentally, in the course of the description, are given valuable hints from practical men as to the culture of the apricot, fig. orange, lemon, walnut, olive and other fruit.

This is, a most valuable publication to send to your friends in the East. It will save a vast amount of letter-writing.

The "Arid Region"-A Possible

Danger.

The early pioneers of the Pacific

Coast-those who were here before

1849-had no conception of the aurif-

erous wealth which lay beneath their

feet. The later comers during the subse-

quent quarter of a century, had as lit-

tle knowledge of the abundant supply of

living water which existed under-ground, waiting to be brought to the

surface. It is only during the past half-

dozen years that we have begun to real-

ize what a wealth of moisture there is

available on this Coast. The necessities of the late boom led to many im-

portant discoveries in this line. It was

necessary to obtain water, if only a little

in order to sell off townsites; so tunnels

were bored and wells dug in places

where the projectors themselves had

little hope of meeting with success, yet

in few cases did they fail to tap the

life-giving fluid. The eyes of the peo-

ple of this section began to be opened, and since then water

has been developed in many un-

expected places. Great artesian wells have gushed forth in spots

which a few years ago were considered

hopelessly arid. In other places great

storage reservoirs have been built in mountain canyons, and deserts below

transformed into smiling orchards, vine

yards and gardens. The question now

begins to crop up: Where is the "arid region?" It has been driven back far-

ther and farther, until it has almost disappeared. True, there are great sec-

tions which are at present deserts, but

not more so than Riverside and Po-

mona and Pasadena were a few years

desert, early melons, and grapes and figs are being raised. In Antelope Val-

sand acres of wheat have been har-

vested, and orchards are being planted

on every side. Where is the "arid re-

gion?" Has it gone to join the "Great American Desert," which we used to

It is not alone in Southern California

that water is being found and devel-

oped. In Arizona great canals, follow-

ing the course of prehistoric water-

courses, are transforming that Terri-

tory into the condition which existed

there, according to Cushing, 10,000 years ago. In Nevada, irrigation is

transforming alkali wastes into alfalfa

fields, and it is already claimed that,

within a few years, the agricultural in-terests of that State will be more

profitable and important than its

mines. Artesian water was struck

a few days ago near Yakima, Washingten, and a large body of arid land in that section has become of

value. So it goes, and considering that

most of this development is the work of

half a dozen years, we are surely justi-

fled in believing that, within twenty

years more, a great proportion of the

Pacific Coast region now termed "arid"

Naturally, the chance to secure land

which by a moderate outlay can be

made to produce annually a hundred

times its present value in products is

now eagerly sought by speculators, who, however, find Uncle Sam's land laws in

contemplated should not be taken with-

out serious reflection. The so-called

"arid lands" are about all that remain

of the broad acres which Uncle Sam formerly had to offer his children. Gov-

ernment land is fast disappearing

and the land hunger is increasing, as

witness the wild rushes when a strip of

territory is now thrown open to settle-

ment. What would be the effect of

transferring the ownership of this

land to the States and Territories?

Would such a move be in the interest of

the people? Could we in California

safely intrust such a Legislature as that

the vast areas within the borders of the

State which come under the designa-

McLain and Lehman will open on Thursday night with Charles Dickson, the favorite comedian in Incog, a new play written by Mrs. Romaldo Pacheco. Considerable interest attaches to the production of this piece here, the author being the wife of the well-known ex-Lieutenant-Governor of the State. Mrs. Pacheco is staying over in San Francisco to see her play, after which she joins her husband, the present American Minister to Guatemala.

The reopening of the Los Angeles Theater by the yeteran manager Harry Wyatt takes place also on Thursday night, his attraction being the production of Hoyt's first departure from the extravagance that characterizes his previous pieces, and an effort on his part to give something that is a partial approach to real literary work—a piece in short, whose success does not depend entirely upon horsepiay and skirt dancing but which has a good comedy vein in it and will please all comers, The piece will be given for the last three nights of the week and also at a Saturday matinee.

LETTERS TO THE TIMES.

LETTERS TO THE TIMES.

Mr. Shorb Stands Up and Speaks Out. SAN GABRIEL, Sept. 17, 1891.—[To the Editor of the Times.] I have just read the regrets of the Herald what they deem intemperate language on my part in reference to George R. Davis, Director-General World's Columbian Exposition.

I am entirely responsible for my state-ments regarding Davis and certain other officials of the board of control. There are men of that board entirely above suspicion, and whose public and private lives challenge the admiration of every proper-thinking man in this Republic. I have not in anywise spoken in such a way as to suggest that I was reflecting the statements of the Herald or the people of this section; and surely the Herald has gone a long ways to gather a conclusion. If the Herald chooses to espouse the cause of Director-General Davis, it is welcome to the position; but possibly before it goes too far, it might be as well for its credit to make some inquiries into the character of Davis and his record.

I desire to say, in order to convey some

knowledge of the true state of affairs in Chicago, that my course was mapped out to certain influential visitors of the local board, and I was requested by them to do as I have done and intend doing. Respectfully, J. DeBarth Shorb.

Bituminous Rock Pavement

[San Francisco Report, Sept. 3.] The prospect is that it will prove as great a success in San Fracisco as it has everywhere else in the world, when properly and honestly laid. Of course, e proviso as to skill and honesty has be made in the case of bituminous to be made in the case of bituminous rock, as in that of every other kind of work turned out by human hands. Like clothes, watches, houses, wagons, shoes ley, which is really but an extension of the Mojave Desert, hundreds of artesian wells have been sunk, over fifty thou-sand acres of wheat have been hard. clothes, watches, etc., because they are open to bad workmanship and dishonest tricks as to discard bituminous rock pavements for that reason. Caveat emptor—Let the buyer beware—is the motto in all branches of business, and we are not, like the Silurians, of the pinion that San Franciscans are in-

capable of managing their own affairs and guarding their own interests.

Supervisor Burling, who has taken a very intelligent interest in the matter of street paving, and devoted much time and trouble to personal supervision of the paving in progress and its effect when completed, finds that in the busi-ness portion of town, where the Silurians urge that the pavement should, in no circumstance, be laid, it affords universal satisfaction, and has created such a demand for offices in the blocks opposite which it is laid that landlords ther can get 20 per cent. more rent. The quiet it gives is a wonderful boon to business men when talking with customers, telephoning, posting their books, making calculations, etc. So also is it a boon to the hotels, especially in the case of guests from the country. ings of the smooth pavement wonder People who are experiencing the bless it. SALT LAKE CITY, Sept. 17.—[By the Associated Press.] The Irrigation Congress closed its sessions today after promulgating the following resolutions convention.

Resolved, that this congress is in favor of granting in trust upon such conditions as shall best serve the public interests to the States and Territories needful of irrigation all lands now part of the public domain within such States and Territories excepting mineral lands for the purpose of developing irrigation to render the lands now arid, fertile and capable of supporting a population. Upon request of the Kansas delegation the following was also

adopted.
Resolved, that it is justly due the settlers of Montana, the Dakotas, Wyoming, Nebraska, Kansas and Oklahoma, who have paid into the United States Treasury millions of dollars in the purchase of these lands and have expended other millions in familians. other millions in fruitless attempts to farm them without irrigation, that a portion of the funds so paid be expended in securing to such lands the benefit of irrigation.

As a committee to carry out the action of the congress and prepare a memorial to Congress, the convention appointed C.-C. Wright, of California; Platt Rogers, of Colorado; A. D. Foote, of Idaho; A. Dastardly Assassination of a Mining Superintendent.

Murdered for His Money by Highway men-A Mine Caves in-Wild · Rumors from San Quentin.

By Telegraph to The Times. NEVADA (Cal.,) Sept. 17.—[By the Associated Press.] W. S. Galavotti, superintendent of the Derbec Drift mine, was murdered by highwaymen this morning while coming to the city with \$5000 in a gold bar just cleaned up at the mine. Galavotti and J. D. Ostrum were in a two-horse buggy ascend-

ing the South Yuba grade six miles from from the bank above. The ball entered the back of Galavotti and emerged from his mouth, causing instant death. Os-trum struck the horses with the whip, urging them into a run up the steep grade just as a second shot was fired. he bullet entered the neck of one of the horses, but the turn in the road soon took the team out of range of the shoot-ers. He continued to force the team up the grade, holding his companion's dead the grade, holding his companion's dead body in the vehicle with one arm and being soaked from head to foot with his life blood. Reaching the Mount Vernon House, Ostrum left Galavotti's body and hid the bullion in the brush. Then he rode to this city to notify the officers. A wagon has just gone out after the dead superintendent's body and several squads of armed men are starting for the scene of the murder

squads of armed men are starting for the scene of the murder.

A wagon brought in Galavotti's body this afternoon. The ball entered the face at the left side of the nose. H died instantly. Ostrom said he first though Galavotti's own gun had been discharged accidentally so close was the shot fired. Ostrom seized the lifeless body just in time to save it from going out of the buggy, then struck the horses to get out of danger. They sprang forward just as the second shot, which struck one of them in the neck was fired. Galavotti's rifle and hat fell to the ground as the team ran up-hill like mad, blood from the wounded horse covering the other horse at every jump. Ostrom neither saw nor heard from the robbers, who are generally believed to have been two in generally believed to have been two in number, although Ostrum thinks that there was but one. The gold bar was brought in this afternoon. It contains a little less than \$4000, being the semi-

monthly clean-up.

Galavotti was one of the best gravel miners in the State. He leaves a wife but no children. Scores of men are searching Yuba Canyon and the outly-ing country in all directions, but as the territory is rugged and heavily tim-bered and cut up with innumerable ravines, there is but little prospect of

capturing the criminals.

Searchers returning from the scene of the robbery report finding one man's tracks leading from a clump of brush on the hill where the shots were fired. 45-calibre cartridge shell was also found there. One party that took the trail claims to have followed it to North Bloomfield, and think they have the culprit spotted. Most of the circumstances now go to show that there was but one fers \$10,000 reward for the apprehen sion of the criminal, in addition to the State's standing reward of \$300 for each highwayman.

THE RAILROADS.

Mr. Burnett Replies to South Pasadena Trustees.

Board Has No Right to Regulate the Rates.

Lively Skirmish for a Big Lot of Stone Freight.

ern Pacific Has Issued a Defi —General, Local and, Personal.

At a meeting of the South Pasadena Board of Trustees last evening Attorney Gibbons wead a reply from General Manager T. B. Burnett, of the Los Angeles Terminal Railroad, to the notification from that board of the action taken at a previous meeting with reference to the alleged violations of the ordinance granting right-of-way to the road. Mr. Burnett replied at some length to the several charges. In regard to the charge that 'the road does not run twelve passenger trains each way daily, he says that the board is laway daily, he says that the board is laboring under a misapprehension, for on all days except Sunday twelve trains are run each way between Los Angeles and Pasadena, and on that day ten trains are run, as the other two are not needed. Anent the second count he says that all regular trains do stop at Monterey road, in South Pasadena, and have always done so, except for two days when Monterey road was made by an error to appear on the time schedules as a flag station. Regarding the increase of rates the general manager regrets the necessity that required the company to do anything objectionable to South Pasadena citizens, but it had to be done to protect the interests of the road. In addition to his own remarks Mr. Burnett quotes from the findings of the State Board of Railroad Commissioners to justify the ground taken by the commany. to justify the ground taken by the com-pany. He states also that his company has been further advised that the por-tion of said franchise which attempts to fix rates beyond the corporate limits of South Pasadena is void for want of power of the city to make such a re-quirement either by contract or or-dinance. FIGHTING FOR FREIGHT.

The announcement the other day that the Southern California Motor road had secured the contract for hauling 10,000 tons of paving-stone from Colton to Sar tons of paving-stone from Coiton to San Bernardino was somewhat premature. It was considered such a certainty that Receiver I. H. Polk made arrangements to lease a number of additional flat cars to haul the freight and build a sidetrack to haul the freight and build a sidetrack to facilitate handling. There was also a flow of champagne on the side to celebrate the victory. But it was all for naught, as the stronger rival, the Santa Fe, secured the contract after all. Though it is only a short haul, the amount of freight secured under this deal was worth the spirited fight made to secure it. Ten thousand tons of freight secured by one deal would have been a great prize for the little motor road and is even quite acceptable to its read and is even quite acceptable to its greater rival. The traffic men of the Santa Fe line feel highly elated.

SUNNY SLOPE TO THE FRONT.

TO THE FRONT.

This beautiful tract of land needs no introduction to the residents of Southern Californsa. Every one who knows of Los Angeles county, also knows of the L. J. Rose's Sunny Slope Ranch and Winery, the productions of which have a national reputation.

This tract has been put on the market at the earnest solicitation of some of the oldest residents who well know the solicitation of some of the oldest residents who well know the surroundings which make the tract a veritable paradise for villa homes. There are three lines of railroad running frequentrains connecting this place with Los Angeles, Santa Feon the north: the Monrovia Rapid Transit extending through the center, and the Southern Pacific on the south. A portion of these lands are covered with live oak timber. The first one hundred acres to be offered lies south of and adjoining Lamanda Park, being just south of Colorado street, and within 1000 feet of the railroad passenger-depot, and will be-sold in tracts of five, ten and twenty acres to suit purchasers, at low prices on the years of the cash.

slightly heavier. He kept following Soto around the ring, but the latter always managed to get out of a difficult corner by his clever ducking. Once, however, Hergett caught Soto napping and landed a vicious right hand swing on the ribs that caused some damage. Soto landed repeatedly on Hergett's jaw but his blows seemed to lack steam and failed to leave any impress on his

opponent.

Hergett showed himself to be a cool, gentlemanly, clever fighter and a strong, hard hitter. His long reach was a telling advantage, and Soto could not counter effectively. Up to the seventeenth round it was anybody's fight.

THURSDAY'S BUDGET.

An Argument Against an Irrigation District for Pasadena,

This City Would Have to Pay the Fiddler,

While the Outside Districts Do the Dancing.

Return of a Party from the Yosemite Cupid Getting in His Work
Mr. Wood vs. Mr.

The proposed formation of an irrigation district continues to be uppermost in the minds of this community.

The following communication from a well-informed citizen sets forth some facts which will doubtless have an important bearing on the case:

"It is past my comprehension to solve the mysterious workings of the minds of

the mysterious workings of the minds of such of our people who have expressed themselves in favor of including Pasadena in an irrigation district, organized under the provisions of the Wright Act. Had they informed themselves at all in the matter, they would as emphatically oppose the measure as they now indorse it. As a friend of 'mine remarked yesterday, 'Impose such additional taxes on Pasadena as such a district would necessitate, and the next you will hear of the town will be 400 measure the company of the co or 500 years hence, when some explorers or 500 years hence, when some explorers may journey this way and in excavating fall upon the ruins of the once prosperous city. By all means form an irrigation district which shall include the land bordering the city to the north and east, but don't try to take in Pasadena and South Pasadena and make their residents, who are or who soon will be provided with an ample water supply, pay the bulk of the expense, when their taxes are already plenty high enough.

when their taxes are already plenty highenough.

"If argument won't count, perhaps figures
will. The assessed valuation of property in
Passadena amounts to a little more than
\$4,500,000. That of South Passadena we
will put in round numbers at \$1,500,000.
Here is a total assessed valuation of \$6,000,000 within the limits of the two cities.
The proposed district outside of these places
will not include more than 10,000 acres of
land, assessed at an average valuation of
not more than \$100 per acre. But put it
at \$150 and it makes the total assessment of
outside land \$1,500,000. The district
would include then property assessed at
\$7,500,000 four-fifths of which would be
contained within the city limits of Pasadena and South Pasadena. These two cities
would then pay four-fifths of the taxes and
the outlying districts, which reap nearly
all of the benefit would pay one-fifth.

"Could Pasadena afford it! I think not.
Bonds at least to the amount of \$1,000,000
would have to be floated. Here would be
\$60,000 interest per annum, to say nothing of the money necessary to call in the
required percentage of the bonds each
year, and at least three-fifths of all this
would fall on the people of Pasadena. It
would be suicidal policy for them to enter
into any such arrangement.

"We have it on the best of authority that

into any such arrangement.
"We have it on the best of authority that "We have it on the best of authority that the two water companies have come to an agreement and that within a short time a contract will be let for a tunnel at Deyll's Jate for further developing the supply. This insures to Pasadena all the water she needs. The irrigation project was started by residents of North Pasadena and the Highlands. Why do they want to include Pasadena? For just two reasons: First, to obtain possion of our water supply, and second, to secure our credit to help float the bonds.

or am told that Pasadena will be greatly if am told that Pasadena will be greatly if an irrigation district. All the "I am told that Pasadena will be greatly benefited by an irrigation district. All the advantages the town will derive will come indirectly. Certainly they will not be in proportion to the tax assessment. If it can be arranged so that the cities shall pay one fifth and the outside districts four fifths of the expense, I would favor the scheme, but even then I would think we were losing works."

oney.
Of course we want the land irrigated all around us, but let those who reap the benefit do the work and pay the taxes. Let Pasa-denians boldly oppose taking a step which if carried out would certainly prove fatal to the town's future growth and prosperity. Our taxes are heavy enough now, and mark my word, the city will soon have an abund-ant water supply of its own. water supply of its own.

MISS BROWNE BECOMES MRS. FERBER. MISS BROWER BECOMES MIS. FERBER.
At 7:30 o'clock Wednesday evening, at

Oaks avenue, Mr. George E. Ferber of Boston, and Miss Mablel Browne of Summerville, Mass., were quietly married in the
presence of a few intimate acquaintances,
by Rev. Dr. E. L. Conger. At the conclusion of the ceremony, which was solemized in a room prettily bedecked with nowters, elaborate refreshments were served

friends.

At the conclusion of the ceremony they were driven to Pasadena, where a pretty home on Adelia avenue awaited them. A jolly good time followed, in which numerous guests participated. There were plenty of good things to eat, and later on an abundance of music was furnished by a serenading party composed of friends of the contracting couple. One of the dishes down on the menu was fowl, and thereby hangs at ale, so Mr. Braley says. If good wishes count for anything, Mr. and Mrs. Baldwin are fortunate indeed.

CAN'T MAKE BOTH ENDS MEET,

CAN'T MAKE BOTH ENDS MEET. CAN'T MAKE BOTH ENDS MEET,
An expensive sewer system at one end, a
sewer farm at the other and no way of
making ends meet. That's the sad status
of the sewer case at present. The Supreme
Court has reversed the decision of the Superior Court in the case of the City vs. C.
W. Stimpson as told of elsewhere, the
action being taken to condemn a right-ofway to the sewer farm below Alhambra.

Quite a large delegation of W. C. T. U., women of this city are attending the annual convention at Santa Ana.

The Riverside box factory on the mountain is at a standstill, owing to a brerk in the machinery. This brought a large number of the employes into the city yesterday. Rafael Terdrisco disturbed the peace, was found guilty in the justice court and fined \$25. In default of payment of fine he lingers at the County Jail.

Work in the Courthouse offices is very dull at this season of the year.

The work of paving the streets seems to be progressing slowly at present, but it will undoubtedly advance in due time.

The highest point the thermometer reached today was 75, and the lowest 48.

Muscat grapes command 2 cents a pound in this fnarket.

RIVERSIDE.

[TIMES agents, R. P. Cundiff and A. L Derby, with whom subscriptions, advertise-ments and news items may be left.]

The great question that is being agitated in Riverside at present is as to street-paving. The pros and cons of the various kinds of pavement are being discussed and the citizens and taxpayers are generally enthe citizens and taxpayers are generally entering into the discussion. It is believed that the City Trustees favor the use of bitumen while there is also quite a sentiment in favor of macadam. Before any paving is done, however, it will be essential for all of the water mains to be laid. Upon the business streets the sentiment seems to be unanimously in favor of paving the business streets.

On the avenues there is also talk about On the avenues there is also talk about

thinning out the shade trees so as to beautify those that will be left standing. NEW SCHOOLHOUSES. The work on the two new schoolhouses

The work on the two new schoolhouses is progressing very nicely.

The Sixth-street schoolhouse will be a beautiful building in appearance. The plastering is now being put on. The roofing is being put on the East Side school-

house.

H. H. Daniels has returned from a trip up the coast, bringing with him a fine pair of roans.

T. S. Ingham of Highlands was in the city recently. He says matters at Highlands are flourishing as usual.

At the last meeting of the Redlands City Trustees the matter of storm water again came up and was generally discussed but no action taken. It seems to be generally conceded, however, that the only way to take the water off is by means of storm drains down the arroyos.

The Southern Pacific right-of-way ordinance was read for the first time before the last meeting of the City Board of Trustees of Redlands. It will undoubtedly pass without any trouble.

COLTON.

[Times agent, B. H. Reynolds, postoffice building, with whom subscriptions, adver-tisements and news items may be left.] The theater train run on the Southern California Motor road between Riverside and Colton is really a great conveniance and one which the people appreciate. A number of citizens with their wives attended

ASSAULT TO RAPE.

Serious Charge Pending The Against M. M. Dalton.

Preliminary Examination Before Just tice Austin Yesterday.

Story of the Alleged Victim as Told on the Witness Stand.

ination, Showing That She Had Been Coached-Mrs. Sulllvan's Statements.

At 9 o'clock yesterday morning, in Justice Austin's department of the Po-lice Court, the case of the people vs. M. M. Dalton, an ex-police officer, was called for preliminary examination.

It will be remembered that about two weeks ago Dalton, who has lived in this city all his life and has stood well, was arrested on a complaint charging him with taking improper liberties with the adopted daughter of his wife's father, John Hagerman. The girl is only 10 years old and lives in the same house with Mr. and Mrs. Hagerman and Mr. and Mrs. Dalton. Dalton and his wife have had trouble for some time past, and were not occupying the same room when Dalton was arrested. There was a friend of Mrs. Dalton's in the house called Mrs. Sullivan and she is the one who claims to have witnessed the as-sault. It was at her instance that the child's adopted father swore to the com-

plaint.

Deputy District Attorney Diehl represented the people and C. C. Stephens, Esq., appeared for the defendant.

An attempt was made on the part of the prosecution to have the case conducted with closed doors, but Dalton objected. His attempt was taken that are bjected. His attorney stated that as the case has already been given to the public in a highly sensational man-ner, he did not care to have star cham-ber proceedings at this stage, and Justice Austin permitted the public to be

The little girl was the first witness called for the prosecution, and she told her story without a break until she was handed over to the defense for cross-examination. It then became evident that she had been coached to a considerable extent and she admitted that she had been told what to say. She stated that on the what to say. She stated that on the day when the alleged offense was committed she was sitting out on the porch with Dalton. Mrs. Sullivan was writing a letter in the parlor, and Mr. and Mrs. Hagerman were lying down. She said Hagerman were lying down. She said that Dalton told her to go up stairs, to a room that was used as a store room. There was a mattress on the floor. After going up stairs Dalton went up and sat down on the bed. She commenced that to play with him. She admitted Dalton pushed her away two or three times. She then went on

two or three times. See then went on to say that Dalton-threw her on the bed and unloosed her clothes.

She told her story without a blush and admitted that she did-not think she was admitted that she did-not think she was doing anything wrong. After awhile she went down stairs and she and Dalton had another romp. She said that Mrs. Sullivan saw her while she was on the bed, and when asked by the Court how she knew that Mrs. Sullivan saw her he said Mrs. Sullivan saw her she said Mrs. Sullivan told her so. The court then took a recess until 2 o'clock

AFTERNOON SESSION. When court reconvened Mrs. Clara Sullivan was called and stated that she does not reside in the State, but is only visiting here and is boarding with Mrs.
Dalton. She remembers the day on Dalton. She remembers the day on which Dalton and the little girl went up stairs. They were up stairs two or three hours. There were several others in the house. She heard Dalton and the girl playing and talking on the porch. Then she heard Dalton and the girl go up stairs. One of the parties was going up in bare feet. She then heard heavy breathing up stairs and quietly slipped out of her room and went fip stairs. She saw them on a "shake-down" stairs. She saw them on a "shake-down bed in a compromising position.
Witness did not make any outcry. She
was afraid of Dalton, as she thought he
has Spanish blood in his veius and she
did not know what he might do. She

and not know what he might do. She saw Dalton in the parlor shortly after and he conversed with her about an air-gun. She did not speak to any one until Mrs. Dalton came home from Pasadena, when she followed Mrs. Dalton up-stairs

and told her what she had seen. Witness did not examine the room in which she noticed the child with Dal-

on. On cross-examination witness stated that she is married and has a husband in Michigan. She came out here for her health and has a mother living at Po-mona. Her little twelve-year-old daugh-ter was living then with her grand-

Witness met Mrs. Dalton at the beach They took a great fancy to each other, and witness came in to visit her. While here they talked of going in the lodginghouse business together, but witness did not think her health will admit of hard work, and they have given up the idea. She has been at the Dalton house three weeks. She did not know that the husband and wife are having trouble. Witness and Mrs. Dalton occupied the same bed, and she does not know where Dalton slept.

Dalton slept.
Witness and Mrs. Dalton did not talk

Witness and Mrs. Dalton did not talk to witness about sending Dalton to State's prison. Neither one of them remarked 'we have got him now."

When Dalton came in the sitting-room the little girl went up to him and leaned up against him and he pushed her away. He then went on the porch and the girl followed him out and witness heard them tittering and laughing. They were out there about ten minutes when they went upstairs. While they were on the porch witness heard Dalton

when they went upstairs. While they were on the porch witness heard Dalton say "up stairs."

Her curiosity caused her to leave her seat and go up stairs. She thought a most horrible crime was being committed, and yet she did not call to Mrs. Hagerman, who was close by, neither did she attempt to find Mr. Hagerman. She did not know where she was. When witness looked in the room where she heard heavy breathing, she could not see the little girl, but she could see Dalton and the the bed and she was confident that the girl was there. She see Dalton and the the bed and she was confident that the girl was there. She stood a few minutes and watched, but she made no effort to interfere, and did not call for help. While she was there the girl's mother, Mrs. Hagerman, called the child to come down stairs. Witness thinks that had not Mrs. Hagerman called, she, witness would have gone in the room. Witness was so excited and surprised that she did not know what to do. She returned to the sitting-room and resumed her seat at a desk where she was waiting when she had her attention called to the disgraceful scene up stairs. She did not have an understanding with Dalton to stand guard for him.

ner and for two hours witness and the mother of the child were together, but witness did not say a word about the

doings up-stairs.

At this stage of the proceedings the defense asked the witness if she visited Santa Monica on August 27. She said she did not, but that she and Mrs. Dalton visited Santa Monica, but she could not remember the date, but it was not on the 27th.

on the 27th.

The District Attorney objected, when Mr. Stephens stated that he proposed to show that witness was at Santa Monica on the 27th of August, and that she there met Officers Woodward and Huston, and the officers put them on the train in a drunken condition. He proposed to show that the witness has entered into a conspiracy to ruin Palton. tered into a conspiracy to ruin Dalton. The Court ruled that the question

was a proper one.
Witness stated that she did not meet

ness was not intoxicated, but she drank some beer.

Witness did not know about the row between Mr. Dalton and his wife on the morning after the alleged assault on the little girl. Mrs. Dalton told her just before breakfast that she had chased Dalton from the place with a nistol.

John Hagerman was the next witness for the people. On the 2d of the month, the day when the alleged crime was committed, witness and Dalton were down town together. They returned to the house at 1 o'clock in the afternoon. Witness noticed Dalton and the little girl playing, and then the girl went up stairs and Dalton followed in a few minutes. Witness heard them playing, but thought nothing of it, as they were in the habit of doing the same thing. Witness was lying down in a room under the stairs and could hear them talking all the while. Witness did not hear that anything had taken place until the next oon. Witness noticed Dalton and the anything had taken place until the next morning when Mrs. Dalton told him.
Dalton was near by and came up after she had gone. He said to witness that it was all a lie.

That morning witness and his wife and Mrs. Sullivan went up and examined the bed. Mrs. Dalton told witness about the girl after she had chased Dalton off the place.

When the matter was talked over,

Mrs. Sullivan was the one who suggested that Dalton should be arrested and she told witness that if he did not have Dal-ton arrested she would do it herself. Witness is of the opinion that Mrs. Dalton did not know anything about the matter until she had a row with Dalton when she told witness and stated that had she known it sooner she would have

One Hundred and Twenty-nine Tons of Hay from 38 Acres.

[Covina Argus.]

To those people who think our lands only good for fruit-growing we cite the fact that thirty-eight acres of wheat hay grown on L. M. la Fetra's place weighed after bailing 129 tons, or over three and a quarter tons to the acre. This will easily, in our opinion, bring \$15 per ton or over \$50 per acre. This is five times the average yield of eastern land, and yet we find eastern people who think California land too high. The same land in oranges or lemons The same land in oranges or lemons would, after five years, at present prices, give net returns of \$150 to \$250 per acre, or inten years of \$400 to \$700 or more per acre. You don't need to have any climate thrown in when you buy such land, though the climate is a necessary auxiliary to the production of such crops.
